Subject: Testimonial

We have used Sebek Construction for the past two years and always found their work to be excellent. Derek Borkiewicz heads up a very reliable team - both in terms of the quality of the building work and trustworthiness. In each instance, the building projects have been managed very well and have been delivered to time and to budget and Derek has always been easily contactable to discuss plans, progress and design ideas in a way which is very reassuring. We have been delighted with the finished results of their work and the way in which it has been carried out. We have had no hesitation in recommending Sebek Construction and Derek to other friends.
